5 As indicated in the correspondences, the necessary documents for executing the application, which included a transfer document and a declaration, were prepared and sent to Mr. Bassett on November 28, 2001. A reminder about the documents was sent on December 13, 2001. In the reply e-mail of January 10, 2002, Mr. Basset
10 acknowledged TMM's proprietary rights in the patent application and offered to provide consulting services, but gave no indication that the documents would be returned as requested. A registered letter was sent on January 15, 2002, advising Mr. Basset that TMM was merely seeking Mr. Basset's signature to meet the requirements of U.S. law. 20 In view of Exhibit E, Applicant has proprietary rights in the present application as a result of the transfer from Dassault Automatismes et Telecommunications S.A. In his e-mail of January 10, 2002, Mr. Basset clearly states that he does not dispute TMM's right in respect of this patent.

25 In view of Exhibit F, Joseph S. Tripoli is authorized to sign requisite documents in proceedings concerning this patent on behalf of Thomson Multimedia Digital France.

30 A Notification of Missing Requirements, requiring the submission of an oath or declaration of the inventors was mailed on February 11, 2001. In response, a declaration signed by Joseph S. Tripoli for Mr. Basset on behalf of Thomson Multimedia Digital France, and a Petition for Extension of Time, is hereby submitted to satisfy the requirement of the Notification and to preserve the rights of Thomson
35 Multimedia Digital France in the present application.

5 In view of the above, it is respectfully requested that the present Petition be granted and that the enclosed Declaration document executed by Joseph S. Tripoli be accepted as satisfying the requirements of 37 C.F.R. 1.497(a) and (b), and that the subject Patent Application be made on behalf of J.C. Basset.
